Data shows past performance. Past performance is not indicative of future performance and current performance may be lower or higher than the data quoted. For the most recent month-end performance data, visit [www.WasatchFunds.com](http://www.WasatchFunds.com). Investment returns and principal value will fluctuate and shares, when redeemed, may be worth more or less than their original cost. The Advisor may absorb certain Fund expenses, leading to higher total shareholder returns. **Total Expense Ratio: Gross 1.78%; Net 1.78%**. The Advisor has contractually agreed to reimburse Total Annual Fund Operating Expenses in excess of 1.95% until at least 1/31/2019.

Wasatch Funds will deduct a 2.00% redemption fee on Fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes.

Investing in concentrated funds will be more volatile and loss of principal could be greater than investing in more diversified funds. Investing in foreign securities entails special risks, such as currency fluctuations and political uncertainties, which are described in more detail in the prospectus.

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, visit [www.wasatchfunds.com](http://www.wasatchfunds.com) or call 800.551.1700. Please read the prospectus carefully before investing.

**Est. 5-year EPS Growth %:** Estimated percentage increase in earnings per share (EPS) per year of the fund's holdings over the next 5 years. These returns are not guaranteed and may be higher or lower. Source: Wasatch and FactSet. **Forward 12-mo. P/E Ratio:** The sum of the stock prices of the fund's holdings divided by the aggregate earnings per share of those holdings for the next 12 months, calculated as a weighted harmonic average. **P/E to Growth Rate:** The forward 12-month P/E ratio divided by the estimated 5-year EPS growth rate. Portfolios with a number less than 1.0 would be considered undervalued, around 1.0 would be considered fair valued and significantly greater than 1.0 would be considered overvalued. **Weighted Average Market Cap:** The average market capitalization of companies held by the fund, weighted by their percentage of fund net assets. **Portfolio Turnover:** A measure of trading activity in a fund's portfolio over the past 12 months expressed as a percentage of the fund's average total assets. **Alpha** measures a fund's risk/reward potential. A positive alpha means the fund outperformed the index. A negative alpha means the fund underperformed the index. **Beta** measures a fund's risk in relation to the market. A beta of 0.8 means the fund's total return is likely to move up or down 80% of the market change; 1.25 means total return is likely to move up or down 25% more than the market. **R-Squared** measures (from 0 to 1.0) how closely a fund's movements are correlated with movements of its benchmark. An R-squared of 1.0 would mean that the fund's movements are completely correlated with the movements of its benchmark.
