Wasatch Advisors is an independent registered investment adviser. A complete list of composite descriptions is available upon request.

The Small Cap Core Growth Composite contains fully discretionary equity accounts following the Small Cap Core Growth style. The composite primarily invests in smaller growing companies at reasonable prices with the goal of long-term growth of capital. For comparison purposes the composite is measured against the Russell 2000 Growth and the Russell 2000 indices.

Effective February 28, 2012, the Russell 2000 Growth became the primary benchmark and the Russell 2000 Index became the secondary benchmark. The benchmarks were changed to better reflect comparisons of the Small Cap Core Growth Composite.

Gross returns are presented before management fees but after all custodian fees, advisor fees, miscellaneous custodian account expenses, and transaction costs. Returns include the reinvestment of all income. Net performance was calculated using actual management fees. Some portfolio net-of-fees returns may be net of performance-based fees. Results are based on fully discretionary accounts under management, including accounts no longer with the firm. The U.S. Dollar is the currency used to express performance. Past performance is not indicative of future results.

Beginning July 1, 2002, composite policy requires temporary removal of any portfolio incurring a client-initiated significant cash inflow or outflow. A significant cash flow is defined as at least 20% of portfolio assets. The threshold was 10% from July 1, 2002 to December 31, 2004.

Depending on the account and the investment style, clients may pay an annual fee up to 2%. Actual investment advisory fees incurred by clients may vary.

The annual composite dispersion is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The Small Cap Core Growth Composite was created December 31, 1986. From January 1, 2009 to February 28, 2012, the Small Cap Core Growth Composite was named the Small Cap Core Composite.

Wasatch Advisors claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Wasatch Advisors has been independently verified for the periods January 1, 1995 through September 30, 2014.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Small Cap Core Growth Composite has been examined for the periods January 1, 1995 through September 30, 2014. The verification and performance examination reports are available upon request.
